Advent Calendar Instructions

You'll need:
'Numbers' page : 'Pictures' page
2 pieces of cardboard (the same size as the pages) : glue : craft knife

Carefully cut out the numbers page and the pictures page -
or make a copy on your printer.

Glue both pages to separate pieces of cardboard.

When the glue is dry, cut along the top and bottom, and left or right side of
each flap on the **Numbers page** (to make a window).

Check that your pictures line up with your windows.

Glue the grey areas around the pictures.

Carefully place the **Numbers page** on top of the **Pictures page**.

You can watch me make one on my website: www.matthewgoodall.org
